Help Us Help You!

We welcome continuous feedback from you throughout the year to help improve the program. You can access our feedback form at any time: http://bit.ly/1cT7St5

There are just 5 questions on the form, and you can complete it as many times as you like to tell us what is working well and what additional resources would help you.

1. What is your primary role at Duke?
2. What success(es) have you had creating videos?
3. What frustrations have you experienced creating videos?
4. What additional support would be useful to you?
5. Any other comments?

ViTaL
VIDEOS in TEACHING & LEARNING

Are you interested in using videos to support teaching and learning? If so, you’re invited to explore the resources provided by the Duke Digital Initiative during 2013-2014 in the exploratory program, Videos in Teaching & Learning (ViTaL).

Your feedback during the year will help define the program and determine its future.
